

TECH QUEST

ICTC SUMMER YOUTH CAMP

EXPLORATORY CAMP #1:

HEALTH CAREERS & COSMETOLOGY

Medical Mania meets the FACE Academy

(FACE: Foundation, Application, Contour, & Eyes)

- Come explore Medical Mania! Learn about our body's sensory system through blind-folded taste tests, smell tests, eye-ball dissection, and more!
- The class will detail the safety and sanitation of makeup use. We will discuss how to match the foundation and the dos and don'ts of foundation application. How to contour appropriately for your face shape and blend it so it looks natural on your face. We will top off our look by learning basic types of eyeshadow combinations and how to properly blend them for a natural look.

EXPLORATORY CAMP #2:

HVAC & AUTOMOTIVE

Major League HVAC takes on the GEAR HEADS

- Hey there, future engineers and problem-solvers! Have you ever wondered how your classroom stays cool in the summer and warm in the winter? Well, that's all thanks to HVAC systems! And now, you have the chance to learn how they work and with a FUN baseball theme! You'll get hands-on experience with tools and equipment, learn about thermodynamics, and understand how we keep people comfortable. Who knows, maybe one day you'll even invent a brand new HVAC technology that changes the world! So, come join us and let's start creating together!
- Automotive: Complete Automotive Maintenance and inspection and complete and perform a multi-inspection sheet.

EXPLORATORY CAMP #3:

WELDING, CARPENTRY & SERVICE CAREERS

Simulated Welding | Bit & Blade | Start-Grow-Advance

- Mig welding simulation using a Lincoln VRTEX 360 Welding Simulator.
- We will be exploring how to measure, mark, drill and assemble birdhouses. So bring your willingness to work and enthusiasm as we create outside sanctuaries for our feathered friends.
- Learn the basics of a small engine and have hands on oil change. Then we'll drill holes in a tire and learn how to plug the hole. Finish off the day by learning plant propagation, in which you will get to take home your plant project.

Thursday, May 25, 2023

7:45AM - 3:00PM

Sallisaw Campus | 401 E. Houser Rd. Ind. Blvd.

For More Information: 918-775-9119

OPEN TO INCOMING 6TH, 7TH & 8TH GRADERS
